Standard Orders	All fixtures are finished brass or aluminum; globes are hand-blown glass. All are assembled in our New York studio. We offer a 14 to 16 week lead time. Expedited lead time available with a Rush surcharge. Lead time for SHY Sconces, Standard Finish is 10 to 12 weeks.
Special Orders	Special metal finishes, glass colors, and/or non-standard hang points on any listed fixture is considered a Special Order. Please inquire about upcharges and possible lead time lead time changes.
Shipping	Shipping charges are not included in prices listed. Crating charges are included for domestic shipping. International shipping may incur additional crating charges.
Custom Orders	Our Custom fixtures offer the opportunity to craft a light precisely tailored to your space and design sensibilities. Each Custom fixture is designed with an emphasis on exceptional form, functionality, and an innate spatial awareness. We welcome other custom designs and commissions on a case by case basis. Please reach out to our studio to discuss the details of your request at sales@becbrittain.com .

Dimming	All fixtures with LED elements (SHY, Aries, Echo, Helix, Zeld) are furnished with a dimmable transformer. Depending on the wiring and installation, wall switches are either Lutron C-L, Lutron Pico, or 0-10V rated. Refer to accompanying intallation and wiring documentation for specifics. All other fixtures (THEMIS, Vise, Maxhedron, Seed) are either directly wired to line voltage or use a converting transformer. For these fixtures, normal dimming switches can be used.

Maxhedron

Designed by Bec Brittain for Roll and Hill

Maxhedron is a study in material transformation through light and reflection. When Maxhedron is turned off, its mirrored surfaces give it a mercurial quality, being at once present yet disappearing as it reflects its surroundings. The second transformation occurs when Maxhedron is turned on - what was a solid surface becomes translucent, and the lights become a constellation of points.
