Zelda

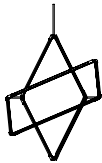

Zelda juxtaposes the powerful materiality of brass-encased LED tubing with gracefully suspended planar forms. This light comes in multiple shapes, sizes, and configurations, and seamlessly adapts to a vast array of spaces and sensibilities. Zelda's flexible form can be fashioned as a simple single diamond, arranged concentrically in geometric orbits, or fit together like links of a chain.

ZELDA

Small:	28" x 17" x 1"H	\$7,360	Diamond of 1 foot bulbs suspended horizontally
Med.:	46" x 28" x 1"H	\$7,800	Diamond of 2 foot bulbs suspended horizontally
Large:	66" x 39" x 1"H	\$8,960	Diamond of 3 foot bulbs suspended horizontally

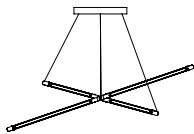

All Zelda fixtures include a mounting canopy in a matching metal finish which houses the low voltage transformer and dimming module. The LED bulbs are powered by way of the suspension cables.

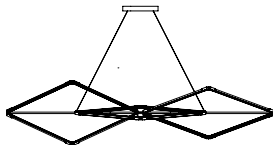

ZELDA ORBITS & ORBITAL PLANES

Med.:	42" x 28" x 28"H	\$13,860	1 foot bulb Diamond suspended vertically with a 2 foot bulb Diamond suspended diagonally
Large:	60" x 39" x 46"H	\$14,200	2 foot bulb Diamond suspended vertically with a 3 foot bulb Diamond suspended diagonally

Zelda Orbits fixtures include a 35" metal mounting stem and canopy in a matching metal finish for either a Remote or a Local installation of the low voltage transformer and dimming module. Metal stems up to 95" are available for additional cost.

Zelda Orbital Planes fixtures include a mounting canopy in a matching metal finish which houses the low voltage transformer and dimming module. The LED bulbs are powered by way of the suspension cables.

ZELDA LINKS

Small:	57" x 17" x 14"H	\$19,800	A trio of 1 foot bulb Diamonds suspended horizontally
Med.:	93" x 27" x 22"H	\$21,400	A trio of 2 foot bulb Diamonds suspended horizontally
Large:	133" x 39" x 33"H	\$23,000	A trio of 3 foot bulb Diamonds suspended horizontally

All Zelda Links fixtures include a mounting canopy in a matching metal finish which houses the low voltage transformer and dimming module. The LED bulbs are powered by way of the suspension cables.

Remote transformer installation is available, with power supplied by through cord-sleeved leads.

Maxhedron

Designed by Bec Brittain for Roll and Hill

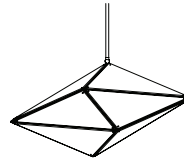

Maxhedron is a study in material transformation through light and reflection. When Maxhedron is turned off, its mirrored surfaces give it a mercurial quality, being at once present yet disappearing as it reflects its surroundings. The second transformation occurs when Maxhedron is turned on - what was a solid surface becomes translucent, and the lights become a constellation of points.

Seed

Designed by Bec Brittain for Roll and Hill

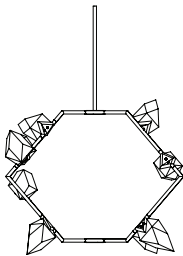

Inspired by seed crystals - the small, nascent granules from which larger crystals are born - Seed's mitered tubing and geometric structure posits juxtaposition between the strict orderliness of the crystallography and the seemingly arbitrary nature of where these substances form. The light's purposeful irregularity is reflected in intentional breaks in the tubing and asymmetrical details in the glass crystals themselves.
